

CHÂTEAU ROUGET 2016

TERROIR

Gravelous soils mixed with clay. This soil composition, combined with an exceptional exposure, confers all the typicity, elegance and finesse to Château Rouget wines.

GRAPE VARIETIES

85% Merlot, 15% Cabernet Franc
Planting density: 3 000 vines per acre / 7 500 vines per hectare
Average age of vines: 40 years

SOIL MANAGEMENT

Vineyards are farmed sustainably, using practices such as cover crops and ploughing.

HARVESTS

Grapes are manually picked and carefully transported in small 20 kg crates. Harvest occurs in several steps, in order to secure an optimal maturity level. Bunches are sorted a first time as soon as they arrive in the cellar. Then, once the grapes are fully destemmed, they go through another double sorting table.

WINEMAKING & AGEING

Grapes are vinified batch by batch, in oak or truncated cone-shaped oak vats, then aged for 18 months in oak barrels (33% new).
